IPTC-Kolloquium SoSe 2015

Datum	Name	Ort	Thema
27.04.	Gert von Helden	Fritz-Haber-Institut, Berlin	IR spectroscopy on peptides and proteins after ion mobility selection and in liquid helium droplets
04.05.	no seminar (Rolf Sammet Lecture)		
11.05.	no seminar		
18.05.	no seminar (FBR)		
01.06.	Bernhard Blümich	RWTH Aachen	Compact NMR for Materials Testing and Chemical Analysis
08.06.	Stefan Weber	Universität Freiburg	Magnetic Resonance Studies of Blue-light active Proteins
15.06.	no seminar (FBR)		
22.06.	Marco Garavelli	ENS Lyon	Modelling light induced events in complex environments: moving towards an accurate computational photochemistry, photobiology and spectroscopy
29.06.	no seminar		
06.07.	Dina Grohmann	TU Braunschweig	Exploring the transcriptional machinery at the single-molecule level
